

## **A Challenge For Antifascists, Journalists, And O9A Critics**

Regarding the Order of Nine Angles and David Myatt:

- 1) For the purposes of this text the abbreviation O9A refers to the "Order of Nine Angles".
- 2) Write a scholarly critique of the 2021 text "The Boundaries Of O9A Philosophy" and thus rationally prove that the O9A is not a philosophy and that the only primary sources for that philosophy are not the published writings of Anton Long dating from 1976 to 2012.
- 3) Cite evidence from the published writings of Anton Long - 1976 to 2012, which have his name attached to such previously published writings - that he condoned or incited misogyny, or rape, or paedophilia or any kind of sexual abuse.
- 4) Provide evidence admissible in a Court of Law that David Myatt is Anton Long and that Myatt wrote the published writings of Anton Long dating from 1976 to 2012 and which published writings have the name Anton Long attached to them.
- 5) Provide evidence admissible in a Court of Law that David Myatt founded the Order of Nine Angles.
- 6) Provide evidence admissible in a Court of Law that the Order of Nine Angles is a group/organization, and that such a group/organization has a leader or leaders. and has members and associates. Acceptable evidence would include an authenticate paper or digital or audio or video trail proving (i) official membership of or official association with the O9A and (ii) that the O9A is a group or organization and (iii) that this O9A has or had a leader or leaders or some kind of hierarchy or leadership committee or cabal.
- 7) Provide evidence admissible in a Court of Law that those individuals who journalists and antifascists and others have stated are members or associates of the O9A were actual members of or associates of the O9A and were influenced by (i) the published writings of Anton Long between 1976 and 2012 and which published writings had his name attached to them, and/or (ii) were influenced by a proven member or proven members or proven associate of an "Order of Nine Angles". Acceptable evidence would include an authenticated paper or digital or audio or video trail proving that an existing or past and proven member or associate of an organization named "the Order of Nine Angles" had contact with and incited or influenced such alleged members and such alleged associates.

Unless and until antifascists, journalists, and O9A critics do all of the above

then their recent or historical claims and allegations in respect of the O9A and Mr Myatt will remain just unproven claims and allegations and should be treated as such with a rational person thus free to conclude that such claims and allegations are propaganda, or lies, or misinformation or fake news designed or spread to maliciously or out of prejudice or ignorance to discredit O9A philosophy and/or Mr Myatt.

The 2021 text "The Boundaries Of O9A Philosophy" is available, as of October 19, 2021, at <https://archive.org/details/o9a-boundaries-philosophy>
